EXPERIENCE

• Horizon View

React Native Developer [App Link](#)

Remote

- Developed and deployed a feature-rich React Native app, available on the App Store.
- Utilized NativeWind for seamless, responsive styling, ensuring a cohesive user experience across different devices.
- Implemented WatermelonDB for efficient offline-first data management, enhancing app performance and user experience.
- Integrated advanced features like push notifications, real-time updates, and smooth navigation, adhering to best practices in mobile app development.
- Collaborated on UI/UX design, ensuring a visually appealing and user-friendly interface.

• Horizon View

Web Developer [Website Link](#)

Remote

- Led the development of HorizonView, a dynamic and responsive company website using React.
- Integrated Sanity as a headless CMS, enabling flexible content management and easy updates for non-technical users.
- Designed and implemented modern, visually appealing interfaces, ensuring a strong online presence for the company.
- Focused on performance optimization, achieving fast loading times and a smooth user experience across various devices.
- Collaborated closely with stakeholders to ensure the website met business goals and user expectations.

• Antennae Ventures

Software Developer Intern

June 2024 - August 2024

Mumbai, India

- Worked on building a SAAS product using React and firebase.
- Demonstrated ability to collaborate with cross-functional teams, adapt to evolving technologies, and contribute effectively to the development lifecycle

• Rely Services

Web Development Intern

July 2022 - August 2022

Remote

- Proven experience in developing and maintaining web applications.
- Proficient in front-end technologies such as HTML, CSS, and JavaScript

EDUCATION

• Dwarkadas .J. Sanghvi College of Engineering

Artificial Intelligence and Data Science

2026

Vile Parle, Mumbai,

- GPA: 8.6

• Thakur Polytechnic

Diploma in Computer Engineering

Kandivali, Mumbai

- Percentage: 91.3%

PROJECTS

- **E-commerce Website**

Tools: [React, Redux, Scss]

- Developed a comprehensive **E-commerce website** using **React**, **Redux**, and **SCSS** for state management and styling.
- Implemented **cart functionality** with real-time **totaling** and checkout processes, enhancing the user shopping experience.
- Integrated **Firebase** for user authentication, real-time database management, and secure payment processing.
- Ensured responsive design and seamless user interactions across various devices, improving customer satisfaction and retention.

- **Space Launch Project**

Tools: [Node Js, Express Js, Mongo DB, React]

- Built a **Space Launch project** powered by **Node.js** and **MongoDB**, leveraging NASA and SpaceX APIs for real-time data retrieval.
- Implemented robust backend architecture using **Express** for efficient API handling and routing.
- Employed **Mongoose** for schema-based data modeling and **MongoDB** for scalable database management.
- Used **Jest** for unit testing, ensuring code quality and reliability.

SKILLS

- **Programming Languages:** JavaScript, Python
- **Technologies:** React, React Native, Firebase, Tailwind, NativeWind, NodeJs, MongoDB
- **Database Systems:** PostgresSql
